Key Changes to Round 2 of the 2026 MDPA Program

Updated August 2026

- The Bank's Board of Directors approved an additional \$2 million in voluntary funding. This increases the total 2026 program allocation to \$13 million and raises Round 2 funding from \$3 million to \$5 million.
- The maximum grant amount will now be \$40,000 per homebuyer, down from \$50,000, in an effort to help more homebuyers overall. As usual, eligible homebuyers who contribute a minimum of \$10,000 toward their downpayment may qualify for a grant of up to \$40,000 that can be used for downpayment and closing costs.
- To support broader member participation, each member may now reserve a maximum of \$200,000 per program year, which is down from \$1 million. Participating members that met the \$200,000 limit in Round 1 are not eligible to reserve grant funds in Round 2.

Frequently Asked Questions

- 1. How do you calculate a homebuyer's income?** The Bank relies on income as reported on the Fannie Mae 1008 form. Members should use the income as reported on the Fannie Mae 1008 form to determine income eligibility. In general, no additional backup documentation is required to the Bank to verify.
- 2. Are non-occupying co-borrowers allowed in MDPA?** Transactions with non-occupying co-borrowers are not eligible for MDPA grant funds.
- 3. How do you verify household members?** The number of household members is reported by the member on the CDR Attachment 1. Non-borrowers who currently live with the borrower and who will live in the home being purchased (such as a parent) should be factored into the household size. Members can determine how to verify the number of household members reported on CDR Attachment 1.

4. **Are there retention requirements for MDPA?** There are no retention requirements for this program.
5. **What is the maximum HTI/DTI allowable?** We do not have a benchmark, but the transaction must be affordable and sustainable. The member can include any relevant notes in the Underwriter Comments section on the Fannie Mae 1008 form.
6. **Are there any underwriting requirements?** Aside from requiring the first mortgage to be affordable, sustainable, and reasonable, we do not usually have other specific requirements on the first mortgage loan. Member financial institutions do not need to originate the mortgage loan to participate in the program.

7. **Is manufactured housing eligible for MDPA?** Our [website](#) includes information on the types of properties eligible for the program. Manufactured housing is allowed, but it must be affixed to a foundation (it must be real property).
8. **Could the homebuyer contribution include sweat equity?** We have no objection to self-help transactions in the program, however sweat equity does not count as homebuyer contribution.
9. **What documents require the homebuyer's signature?** Only the Certification & Disbursement Request form requires the homebuyer's signature. We do not require a homebuyer signature on the Final Closing Disclosure.

- 10. Must all co-borrowers be first-time homebuyers, or does only the primary borrower need to be a first-time homebuyer?** All borrowers must be first-time homebuyers, as defined by HUD, to be eligible for MDPA grant funds.
- 11. How will members know if funds are still available for the program?** Once the program opens, the Bank plans to begin sending a weekly email to all currently participating members.
- 12. Which homebuyer counseling/education program is acceptable?** Homebuyers are required to complete a homebuyer counseling/education program offered by an experienced organization. Homebuyer education programs offered by HUD-approved housing counseling agencies are acceptable, as are online programs such as HomeView, Framework and CreditSmart.
